Wayne Golf Course
16721 96th Av NE
Bothell, WA 98011

Dear Mr. Richards,

OneBothell represents numerous members of the community from Bothell and surrounding areas who care about Wayne Golf Course. We have been following your request that the City of Bothell rezone the clubhouse and parking area with more than a little interest. It's with great apprehension we also hear that the Back 9 is being put on the market.

Many of your neighbors have enjoyed playing golf on your course and continue to enjoy the attractive open green space that Wayne land offers to the larger community. We appreciate your contribution to the community of Bothell over the years, in particular selling development rights of the Front 9 in a Conservation Easement for residents of Bothell and King County to enjoy the open space in perpetuity.

You can appreciate that your proposed plans for 76 townhouses on the Wayne Golf Course property and selling the Back 9 to developers would be highly undesirable for the community and our continued enjoyment of the Wayne land you've been custodians of since 1950.

We urge you to drop your request that the city of Bothell rezone the Wayne Golf Course clubhouse area and partner with us to find a solution for the City of Bothell to own the land for the people of Bothell and surrounding areas for generations to come.

We're keen to meet with you, and discuss how to we can work together in the best interests of the community. Please call James on 425-466-2599, or email us to set up a meeting with the leaders of our group.

Sincerely,

Ph: 425-466-2599
